+ Git  
+ SVN

## LANGUAGES

+ Russian (native)  
+ English (fluent)  
+ German (pre-  
intermediate).

# Vitaly Ishkulov

software engineer with more than six years of experience working on web and iOS projects; I'm looking to become part of the iOS developers team.

## EXPERIENCE

### Co-founder and CEO @ Caerus Innotech // May 2011 - Current

Caerus is a boutique Russian IT-company with multiple international clients.

- \* The company received more than \$30k in government grants for two research projects: algorithm of super scaling that enabled images to be significantly enlarged while preserving its details; clustering and heuristic search for images on a set of emotional characteristics using neural networks.
- \* The company has been working with multiple clients around the world from a variety of sectors: concert agency with international and US presence, wellness startup (Germany), auto sales company (Latvia), electronic commerce company (Spain) as well as Swedish and various Russian companies.
- \* The scope of work included working on the web, mobile and IT-infrastructure services; billings up to \$150k.

### User experience/user interface engineer @ SKB Kontur // Summer 2011

SKB Kontur is in top-10 Russian IT-companies that provides electronic document management systems for businesses.

- \* Developed interface for the core company business service—electronic exchange of the financial transaction documents. That project resulted in an integral business service that helps customers to cut paper usage and save \$2.16 million on mail delivery.
- \* Developed logic and interface for the filters that allowed to search for any internal document within the company.

### Deputy director @ NTZEMI (Ural Plant of Electrical products) // Sep 2007 - Jan 2012

NTZEMI is leading manufacturer of industrial electrical equipment.

- \* Introduced in 2008 CRM-like electronic system that tracked activity in every marketing channel, which brought complete transparency on the effectiveness of the marketing budget distribution and led to a substantial increase in promotion efficiency.
- \* Collaborated on founding a subsidiary company that provided repairing and modernization services that expanded clients base and allowed to increase income while sales dropped during the crisis and recession of 2008. Net income went 60% up.
- \* Prepared and conducted commercial negotiations with our Chinese partners.

## EDUCATION

- \* Ural Federal University, MSc Math and Computer Science, class of 2015 (GPA 5.0 of 5).
- \* Yandex School of Programming, class of 2015.
- \* Kontur School of Industrial Programming, class of 2015.
- \* Ural Federal University, Specialist Degree in Marketing of Industrial Goods, class of 2010 (GPA 4.9 of 5).
- \* Public Speech Training // English and German language courses // Kontur Programming Camp // Coursera.

## ACHIEVEMENTS

- \* Diploma with Honors at the Ural Federal University, 2015;
- \* Apple WWDC'15 Scholarship winner;
- \* Innoprom TechFame winner, 2013;
- \* Startups to Change the World Contest winner, 2011;
- \* Diploma with Honors at the Ural Federal University, 2010;
- \* Gold medal of exhibition for NTZEMI Industrial Company in "Promotion of Innovative Products" nomination, 2008;
- \* Golden Site Award for the website design, 2008;
- \* Silver Medal for achievements in studying, 2005;
- \* UNESCO School 1st place award for the best public speech, 2003.
